excellence in healthcare supply chain management

executive CAS program by

initiated and supported by
Deliver high-level Professional Education to Healthcare Supply Chain Practitioners, through disruptive pedagogical tools & methodologies, to maximize capability development

«IML brings 25 years of supply chain research, education and expertise to the healthcare sector booming around the lake of Geneva. The HSCA has been initiated and supported by Ferring Pharmaceuticals, Merck BioPharma and Supply Chain Operations SA. I am delighted by such collaboration between academics and business private sector professionals and I am very happy to manage this new executive program in Healthcare Supply Chain Management»

Prof. Ph. Wieser
